Atlantic Highly Migratory Species; Atlantic Bluefin Tuna Fisheries; General Category October Through November Quota Transfer and Adjustment

NMFS is adjusting the Atlantic bluefin tuna (BFT) General category October through November 2026 time period subquota by transferring 70.2 metric tons (mt) of quota from the Reserve category. Simultaneously, NMFS is adding 16.7 mt of subquota remaining from the June through August time period to the General category October through November time period. This action results in a total adjusted General category October through November time period subquota of 192.9 mt and an adjusted Reserve category of 42 mt. This action would affect Atlantic Tunas General category (commercial) permitted vessels and Highly Migratory Species (HMS) Charter/Headboat permitted vessels with a commercial sale endorsement when fishing commercially for BFT.

Agency: Commerce Department, National Oceanic and Atmospheric Administration.

Document type: Rule.

Document number: 2026-20652.

Official Federal Register document. Matter furnished by the National Archives Federal Register API. Notice Nearby is not the publisher of record for this item.
