Management Track Assessment for American Plaice and Gulf of Maine Haddock; Public Meeting

NMFS will convene the Management Track Assessment Peer Review Meeting for the purpose of reviewing American plaice and Gulf of Maine haddock stocks. The Management Track Assessment Peer Review is a formal scientific peer-review process for evaluating and presenting stock assessment results to managers for fish stocks in the offshore U.S. waters of the northwest Atlantic. Assessments are prepared by the lead stock assessment scientist and reviewed by an independent panel of stock assessment experts. The public is invited to attend the presentations and discussions between the review panel and the scientists who have participated in the stock assessment process.
