Air Plan Approval; Maryland; Reasonably Available Control Technology for Municipal Waste Combustors

The U.S. Environmental Protection Agency (EPA) is approving state implementation plan (SIP) revisions submitted by the State of Maryland. The SIP revisions consist of a regulation that implements statewide reasonably available control technology (RACT) requirements by limiting air emissions of oxides of nitrogen (NO_x) from municipal waste combustors (MWCs) in Maryland. This action is being taken under the Clean Air Act (CAA).

Agency: Environmental Protection Agency.

Document type: Rule.

Document number: 2026-20635.

Official Federal Register document. Matter furnished by the National Archives Federal Register API. Notice Nearby is not the publisher of record for this item.
