

An Arizona park fire-code prime is already signed

The prime is already picked. WRX Contracting, LLC won this job.

The award amount is \$895,000. The awarding agency is the Department of the Interior. The sub agency on the record is the National Park Service.

The award text describes a construction project for two National Park Service log cabins at Grand Canyon-Parashant National Monument. The work is to meet the current fire code. The record says the contractor will install a new sprinkler and fire detection system. The place of performance is Littlefield, Arizona.

The base obligation date is September 21, 2026. The period on the record runs from September 21, 2026 to July 20, 2027. The award id is 140P8126C0005. It is a definitive contract. That is a prime contract, not a subcontract.

The NAICS code is 238220. That code means plumbing, heating, and air-conditioning contractors.

This award is already with the prime. A small contractor does not bid it again. Call WRX Contracting, LLC and ask about subcontract work. Check NAICS 238220. Watch Arizona for the next job like this.
