

Los Angeles building permits, September 20–26, 2026

Public notice. Los Angeles Building and Safety's issued-permits file has no rows with an issue date from September 27, 2026, through October 3, 2026. The newest issue date in the file is September 26, 2026. For September 20 through September 26, 2026, the file lists 1,479 permits. The largest permit types that week were building alteration or repair (1,037), building new (100), grading (91), building addition (88), swimming pool or spa (49), and nonbuilding new (43). Those six groups are 1,408 of the 1,479. This notice does not list a street address. Check the city's open-data copy before you rely on a permit.
