

Baton Rouge building permits, September 27–October 3, 2026

Public notice. The East Baton Rouge building-permits file lists 159 permits with an issued date from September 27, 2026, through October 3, 2026.

A sum of project value on that same date filter was \$28,155,997.77. The newest issued date in the file is October 2, 2026.

The largest permit types in the window were residential re-roof (36), commercial occupancy (19), commercial re-roof (15), residential gas test (14), and residential occupancy (14). This notice covers the parish open-data file used for Baton Rouge.

It does not list a street address, a permit number, or a contractor. Confirm the permit on the East Baton Rouge public copy before you rely on it.
