

Columbus building permits, September 27–October 3, 2026

Public notice. Columbus's building-permits map lists 802 permits with an issued date from September 27, 2026, through October 3, 2026. The newest issued date in that set is October 1, 2026. On that same date filter, the summed value field was \$41,587,853.13. The largest general types were one-, two-, or three-family other work (570), commercial other work (138), and multifamily other work (56). Those three groups are 764 of the 802. This notice does not list a street address or a permit number. The count comes from the city's public map. Check Columbus's own copy before you rely on a permit.
