

Norfolk permit applications, September 27–October 3, 2026

Public notice. Norfolk's public permits file lists 274 rows with an application date from September 27, 2026, through October 3, 2026.

This date is the application date, not an issue date. In that window, the largest status group is Issued, with 97 rows.

Other large status groups include Additional Information Required (34) and Documents Submitted (28). The largest application types were electrical (71), building (63), plumbing (55), and mechanical (40).

The newest application date in the whole file is January 27, 2027, so the file is not stuck on an old year. This notice does not list a street address. Check the City of Norfolk record before you treat a row as issued.
